

Jawaharlal Nehru Govt. Engineering College Sundernagar, Mandi (H.P.)

Course Name: Energy and Environment Course Code: EVS-111

Scheme: CBCS Branch: CSE(AI & ML) Semester: 1st

Question Paper for 1st Periodical Examinations (October, 2023)

Time: Two Hours

Max. Marks: 50

Note: First question is compulsory. Attempt any four questions from question no. 2 to 6

Course Outcomes:

CO-1 Understand the structure and function of ecosystem and role of international conventions on climate change.

CO-2 Summarize various global environmental issues.

CO-3 Critically analyse causes, consequences and control measures for environmental pollution.

CO-4 Justify the conservation of natural resources for sustainable development.

CO-5 Critically understand the meaning and principles of disaster management, disaster risk reduction and develop knowledge on causes, effect and mitigation strategies of various disasters.

CO-6 Establish a conceptual understanding of hazard, risk, vulnerability, disaster and national policy on disaster management.

Q1. Answer the following questions

- | | |
|--|--------------|
| a. The greatest worldwide use of water is for _____ | CO(2) |
| b. Herbivores are _____ consumers | CO(1) |
| c. Define biotic component. | CO(1) |
| d. What is greenhouse effect? | CO(1,2) |
| e. Which country is going to host COP28? | CO(3) |
| f. In Energy pyramid, which organism has least amount of energy? | CO(1) |
| g. Which gases are included in the list for emission reduction by first commitment period of Kyoto protocol? | CO(3) |
| h. What are the different greenhouse gases? | CO(1,2) |
| i. Name the various alternatives to CFCs. | CO(3) |
| j. What is acid rain? | CO(2) (1×10) |

Q2. Explain in detail the structure and function of an ecosystem. CO(1) (10)

Q3. What is the United Nation Framework Convention on Climate Change? CO(3) (10)

Q4. What is a carbon foot print and what is its significance? CO(3) (10)

Q5. Explain in detail the principle of disaster management. CO(6) (10)

Q6. What are the different global environment crisis? Discuss in detail. CO(2) (10)

(Ajay Kumar)
