

Jawaharlal Nehru Govt. Engineering College, Sundernagar, Distt. Mandi (H.P)

Program	B.Tech.	Semester	3rd
Subject Code	CSPC-312	Subject Title	Python programming
Mid Semester Test (MST) No.	1	Coordinator	Aditi Mahajan
Max. Marks	50	Time Duration	2 hour
Date of MST	1-10-2024 (E)	Roll Number	

Note: Attempt all questions

Q. No.	Question	COs	Marks
Q1	I. Explain id() and type() function II. What is default argument in python functions, and how can they simplify function calls? III. What is the value of the expression 125//13? IV. How do you create a multiline string in python? V. Explain membership operator with help of example VI. What is the value of the expression 1 + 2 ** 3 * 4? VII. Explain purpose of else clause with Python's for and while loops. VIII. Give three logical operators IX. Explain with example sep and end attribute. X. Create empty string object in Python using two different ways.	CO1,2,3	10*2=20
Q2	Discuss the ord(), hex(), oct(), complex() and float() type conversion functions with examples.	CO1	10
Q3	Write a program in python to print Fibonacci series using for loop and range(). Or What are different flow control statements supported in Python? Explain the while statement with proper example.	CO2	10
Q4	What is string slicing in python. How it is used to extract substring from a larger string? Provide example of string slicing and indexing.	CO3	10

Course Outcomes (CO), Students will be able to

- 1. Python Proficiency:** To have a understanding of the basic principles and concepts of Python covering its operators, data types, expressions, type conversions and basic inbuilt functions.
- 2. Control flow statements & Functions:** To learn how to write and use various loops and decision statements in Python. To learn how to write functions and pass arguments in Python.
- 3. Iterables:** Using string, lists, tuples, set and dictionaries and applying various operations and methods to them in Python programs
- 4. Files, CSV files:** To able to read and write different types of files in Python and be able to work with CSV files.
