

Jawaharlal Nehru Govt. Engineering College Sundernagar, Mandi (H. P.)

Course Name: **Energy & Environment**

Semester: 1st

Examination: 1st Periodicals

Course Advisor: **Dr. Champa Verma**

Branch: CE

Course Code: EVS-111

Question Paper for 1st Periodical Examination (September, 2024)

Time: Two hour

Max. Marks: 50

Course Outcomes: At the end of course students will be able to:

1. Understand the structure and function of ecosystem and role of international conventions on climate change.
2. Summarize various global environmental issues.
3. Critically analyze causes, consequences and control measures for environmental pollution.
4. Justify the conservation of natural resources for sustainable development.
5. Critically understand the meaning and principles of disaster management, disaster risk reduction and develop knowledge on causes, effects and mitigation strategies of various disasters.
6. Establish a conceptual understanding of hazard, risk, vulnerability, disaster and national policy on disaster management.

PART-A

- Q1. (a) (CO1) Define ecosystem. What is the role of decomposers in an ecosystem?
(b) (CO2) What are the environmental impacts of ozone layer depletion?
(c) (CO1,2) What you can do to diminish climate change?
(d) (CO4) Give two merits and two demerits of constructing dams.
(e) (CO4) What is the importance of conserving natural resources?

(2×5=10)

PART-B

- Q2. (CO1) What is ecological succession? How secondary succession differs from primary succession? Explain the mechanism of ecological succession, including its stages.

(12)

- Q3. (CO2) (a) Explain the greenhouse effect and its role in global warming.

- (b) What are various alternatives to CFCs or Ozone Depleting Substances (ODS)?

(7+7=14)

- Q4. (CO4) (a) Define deforestation. Discuss the importance of forest resources.

- (b) Discuss the national green hydrogen mission, including its objectives and expected outcomes by 2030.

(7+7=14)
